

Land to Sea Campus

*a unique opportunity for the next generation of
Pacific sustainability leaders*

NEW CALEDONIA

**A 1-week immersive mobility programme in New Caledonia, a
french island in the pacific**

Exploring climate change, biodiversity and sustainability transitions in Pacific islands

- University of New Caledonia (3 hours flight from Sydney)
- 5–12 November 2026
- 2 credit points
- Programme fee: €742 (approx: 1,230 AUD)

Included: accommodation, program activities, transportation for schedule activities

Discover a French Pacific Island through an interdisciplinary experience

Join students from across the Pacific region for a unique learning journey exploring the connections between ecosystems, climate change, and island societies. Through lectures, fieldwork, cultural activities, and exchanges with researchers, local communities, NGOs and practitioners, students will explore sustainability challenges from land to sea in the context of a Pacific island.

During this 1-week programme, you will:

- Study mangroves, coastal environments and biodiversity challenges
- Explore climate change impacts on Pacific Island systems
- Meet local experts, communities and stakeholders
- Discover New Caledonia's cultural and environmental perspectives
- Build connections with students from across the Pacific

Programme Highlights

Pacific context & intercultural perspectives : Visit of the Tjibaou Cultural Centre and introduction to New Caledonia

Mangroves & coastal ecosystems : Field studies on climate change impacts

Island resilience & societal transitions : Exploring adaptation strategies and local practices

Mining and resource challenges : Field excursion with geologists and mineralogists

Knowledge sharing & networking : Student presentations and international connections

Join the next generation of Pacific sustainability leaders
